9TH DAN

"Three years have passed since the establishment of the World Zen-Kyokushin in February 2019. During that time, the worldwide pandemic spread all over the world and due to the lockdown in dojos around the world, not only was it impossible to do activities, but it was also restricted from traveling abroad.

However, I hope that our Karate enthusiasts around the world will have international exchanges in April next year and that the countries of the world will cooperate and develop with a sense of gratitude to the founder, Sosai Mas Oyama.

We decided to implement this project in order to create an opportunity for promotion in Japan for the representatives and instructors from each participating country and to bring everyone together.

Currently 25 countries around the world are members of World Zen-Kyokushin and we hope that it will be an opportunity for further development in the future."

GOAL OF THE EVENT

1. We strive to strengthen the development and deepening of international exchanges with members around the world through professionally organized activities.
2. In order for our organization, the IKO World Zen-Kyokushin, to develop worldwide, we will hold an international conference in Tokyo.
3. To experience traditional Japanese culture, we will visit historical tombs and the legendary Mitsumine Shrine, hold seminars, and practice for dan exams.
4. In order to raise the rank of representatives and trainers from each country, a meeting is held to consider promotion.
